

Winter Warmer Recipes

The following are suggestions on how to create winter warmers. These are a collection of suggestions from Herbalife Distributors.

General consensus is to heat the liquid first with all the ingredients, then add the shake mixture and blend. It is a good idea to mix the Formula 1 (F1) (2 scoops) and Protein Drink Mix (PDM) (1 to 2 scoops) with a small amount of cold liquid and blend to the hot one. You can use a microwave: 2 minutes on medium heat should be sufficient.

- 1) F1 Toffee Apple and Cinnamon with PDM in 250ml water then microwave.
- 2) Herbalife Gourmet Tomato Soup as a snack, or with wholemeal roll and fruit for lunch.
- 3) 250ml water blended with banana, microwave, add F1 Chocolate and PDM.
- 4) Make a coffee and add F1 Cappuccino or Chocolate.
- 5) 250ml water blended with F1 Cookies & Cream and PDM, then microwave.
- 6) F1 (any flavour) and PDM mixed with hot porridge oats and 250ml water.
- 7) Any soup (fresh, tinned or packet) with F1 Vanilla added and/or PDM, after it has cooled down a little.
- 8) F1 Chocolate or Cappuccino and PDM, 1 dessert spoon of fromage frais, 1 teaspoon of coffee, 250ml hot water.
- 9) Hot Nogg! F1 Vanilla and PDM, teaspoon of honey, ¼ teaspoon vanilla essence, ¼ teaspoon of ground nutmeg mixed in 250ml water then microwave.
- 10) Get up and Go! F1 Chocolate and PDM, 3 prunes, 2 tablespoons Oat Bran, 250ml hot water.

Tip: Do not use a shaker for hot shakes, as the pressure caused by the hot liquid will force off the lid and you will get covered!
